

CARDIMAX PRODUCT INFO SHEET

Description

Cardimax is a convenient all in one cardiovascular support supplement.

Ingredients

Berberine Sulfate

Berberine is a bright yellow alkaloid found in numerous medicinal plants. It has been shown to have numerous effects which benefit the heart such as enhanced coronary heart flow and oxygenation, decreased vasoconstriction, lowered blood pressure and strengthened heart contractility. Berberine was successful in a controlled clinical trial of congestive heart failure patients (Am J Cardiol 2003;92:173-176), improving quality of life while decreasing complications, rehospitalizations and mortality. The long and safe use of berberine sulfate makes it a perfect addition to this blend.

Hawthorne Extract

Hawthorne, called Crataegus by the herbalists that have used it for centuries, is considered to be a vital cardiogenic, effectively strengthening the contractile force of the heart while increasing blood flow and reducing blood pressure. A long history of use has recently been confirmed in positive human clinical trials which showed safety and efficacy.

Taurine, L-Carnitine

Taurine is known for helping balance calcium and potassium in muscle cells, and is an important factor in helping the heart muscle pump stronger. Several studies indicate taurine is a safe, effective therapeutic tool in the management of various types of cardiovascular conditions due to its positive inotropic effects. Human studies with L-carnitine supplementation have yielded significant clinical results in a variety of cardiovascular related trials. As secondary amino acids, both help support the energy of cardiac muscle tissue and help balance calcium and potassium – vital for efficient heart function.

Quercetin

Quercetin, a bioflavonoid with numerous beneficial properties, has been shown to have remarkable effects in both induced and spontaneous animal models of hypertension. These benefits seem to be related to quercetin's antioxidant properties which result in endothelial and end-organ protection.

Supplement Facts

Serving Size: 2 Capsules

Servings Per Container: 60

2 capsules contain	Amount Per Serving	% Daily Value
Berberine Sulfate Hydrate	540 mg	*
Taurine	450 mg	*
Quercetin	180 mg	*
Hawthorne Leaf and Flower Extract (Standardized to contain 1.8% Vitexin-2-Rhamnoside)	144 mg	*
L-Carnitine L-Tartrate	112 mg	*

* % Daily Value not established

Other Ingredients: Natural Vegetable Capsules. This product may contain one or more of the following: Calcium Silicate, Magnesium Stearate, Microcrystalline Cellulose, Silicon Dioxide, and Stearic Acid.

ID #507120 ~ 120 Capsules

Dosage

SUGGESTED USE: As a dietary supplement, 2 capsules two times per day, or as recommended by your health care professional.

Contraindications

If you are pregnant or nursing, consult your physician for more information.
