

MEMBRIN PRODUCT INFO SHEET

Description

Membrin is intended to support those with cognitive related issues.

Ingredients

Many Americans are beginning to reach the age where cognitive function is an important issue. Dietary factors can play a large role in cognitive health. Natural ingredients, like those found in Membrin, may also help support those looking for cognitive support.

Ginkgo biloba is probably one of the most well known extracts for cognitive support. Ginkgo has been shown to increase blood flow to the brain, promote nerve conductivity and improve memory in elderly patients. Vinpocetine is an alkaloid derivative of vincamine, an extract from the periwinkle plant. It is regarded as a neuroprotective agent and has been found to increase cerebral blood flow in animal research. Huperzine is extracted from Chinese club moss. Huperzine works as a potent, selective and long-term protector of the naturally occurring neurotransmitter, acetylcholine. Acetylcholine is essential for the enhancement of memory and learning.

Supplement Facts

Serving Size: 1 Capsule

Servings Per Container: 30

1 capsule contains	Amount Per Serving	% Daily Value
