

OLIVE LEAF EXTRACT PRODUCT INFO SHEET

Description

Natural support for the immune system.

Ingredients

Olive Leaf Extract is used to support the immune system. Oleuropein is a bitter glycoside found in Olive Leaf. Oleuropein has been widely studied since the early 1960's for its amazing immune-stimulation properties. The promise of this herb warranted years of research by drug companies to synthetically copy the natural action of Oleuropein, but no suitable replacement was found. Research concluded that the natural immunomodulation actions of Oleuropein was impossible to synthesize. Oleuropein functions in a number of ways. First, it interferes with critical amino acid production that is essential for viruses and bacteria to thrive. It also directly penetrates infected cells to stop viral replication.

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 60

	Amount Per Serving	% Daily Value
1 capsule contains		
Olive Leaf Extract (Standardized to contain 20% Oleuropein)	500 mg	*

* % Daily Value not established

Other Ingredients: Natural vegetable capsules.
